

# Climate Cooperation between the City of Helsinki and businesses

The Climate Partners network fosters cooperation to reduce emissions that affect the climate as well as to make companies more climate smart. The companies that join Climate Partners sign the Climate Commitment together with the Mayor of Helsinki. Each company specifies its own environmental goals. The goals aim at improving the current situation and go beyond the requirements of current legislation.

Examples of the Climate Commitments:

## **Accenture Finland**

- We have committed ourselves to reducing our carbon dioxide emissions by an average of 2 tonnes per employee, that is, by more than 50 per cent by 2020 (from 2007).

- By 2021, all Finnish offices of Accenture will be run exclusively on renewable energy.

## **CGI Suomi Oy – CGI Finland**

- We are committed to reducing our carbon dioxide emissions by 6 per cent annually and by 50 per cent from 2008 to 2020.

## **Fiskars Oyj Abp**

We seek to achieve the following by 2027:

- 50 per cent of all materials used in our products will be either renewable or recycled.

### **Finlayson Oy**

- Reduction of carbon footprint by 20 per cent in relation to sales (2015–2020).
- Replacement of cotton with materials that place a lower burden on the environment, including cellulose-based fibres and recycled fibres.

### **Finnair Oyj**

- We are committed to carbon-neutral growth in the industry from 2020 onwards in compliance with the objective set by the International Air Transport Association IATA.

### **Fujitsu Finland Oy**

- We are committed to compensating for emissions that exceed limits through the measures associated with the goals set in our environmental programme, by funding Gold Standard projects.

### **Kesko Corporation**

- We are committed to reducing our direct and indirect emissions (Scope 1 and 2) by 18 per cent from 2015 to 2025. We are committed to reducing

the emissions (Scope 3) caused by our production chain by ensuring that 90 per cent of Kesko's biggest suppliers set their own emissions goals by 2025.

### **OP Financial Group**

- Our goal is to be carbon positive by 2025.

### **UPM**

- The carbon dioxide emissions of energy production and purchased electricity (Scope 1 and 2) will be reduced by 30 per cent from 2008 to 2030.

### **Climate Partners:**

- Established in 2012.
- Over 80 partners in 2019, including businesses, universities, research institutions.
- The aim is to increase new and innovative ways of cooperation to reduce emissions.
